To,
Hiring Manager,
A Hydro Power Company,
Nepal.

Subject: An expression of interest for the post of Civil Engineer.

Dear Sir/maam,

Being the prominent organization, you would be of course looking for a dynamic, visionary and responsible technical support for resilient community for the organization. Here, I Jan Jiwan Thakur present myself for the post of Civil Engineer.

I, an emerging professional of vision backed with confidence, hold intermediate degree backgrounding Physical Science faculty. Continuation of higher education in B-Tech in Civil Engineering from Teerthanker Mahaveer University, Uttarpradesh, India.

I have a keen interest in this field. Moreover, my previous experience as Design Engineer of Sinohydro corporation Ltd, Bureau-11 at Tamakoshi Hydro Electric Project(456MW), Tanahun Hydro Electric Project(140MW) and Upper Trishuli-1 Hydro Electric Project(216MW) has enhanced my Technical Skills, and responsibility handling ability. In addition to this, working under pressure as well doesn't strain me much. Having good command in English and computer knowledge has helped me a great deal to update my professionalism. Working in group and leading team are few of much pleasing aspects to me in work. One of the opportunities that often excite me is communicating in cross-cultural setup

My present salary is Rs 90,000 excluding overtime and allowances (like lodging and fooding, travel allowance). My expected salary for the new company is Rs 1,20,000 excluding any of the extra cost of allowance.

I enclose my resume for your review and hope for the positive response onward which will help me increase my skills also I could apply my theoretical knowledge on to the field.

Looking forward for hearing positive.

Sincerely,

Jan Jiwan Thakur
